Sailing nightly, we serve eight different fine wines from all over the world, usually four red, three white, and a Champagnoise. Sailing in Guadeloupe | Wind and Sail The wind picked up to 20 knots and we hit 8 to 9 knots at times. For a while the waves were swelling up close to 10 feet which was really a thrill sitting on the side of the boat, feet dangling off the edge. How to Read the Wind When Sailing - ThoughtCo.com is the ... But experienced sailors learn to read the wind in a more sophisticated manner by paying attention to indicators both on and off the sailboat. Racing sailors become adept at observing changes at a distance and predicting wind shifts.

Sailing - Wikipedia Sailing employs the wind's acting on sails, wingsails or kites to propel a craft on the surface of the water (sailing ship, sailboat, windsurfer, or kitesurfer), on ice or on land over a chosen course, which is often part of a larger plan of navigation.. A course defined with respect to the true wind direction is called a point of sail.
