Windows xp just keeps rebooting - Tom's Hardware Hi Michael, I know this is an obvious question, but do you have your installation CD? I found this on ST&T forums: After inserting the installation CD, Windows will find your C: Windows. This Windows XP 2018 Edition concept is just simply amazing Maintaining the same essence and originality of Windows XP, Mr. Kamer has created the concept of the 2018 version of Windows XP. He doesn't make any changes to the colors of original Windows XP but eliminated recurrent and outdated features. Windows XP: All dead, or just mostly dead? | Computerworld "Windows XP is retired," Goettl said. "This is definitely unprecedented, but [Microsoft is] saying that this is not normal, and is not going to continue." Questions about Windows XP's status -- dead or undead? -- surfaced in May when Microsoft distributed patches to the no-more-support XP, Windows 8 and Windows Server 2003. Those updates were issued to protect the trio from the fast-spreading "WannaCry" ransomware campaign.
